Vendor 1 — Nexora Technologies

Position

Strong overall — but deliberately borderline

Proposal

Vendor: Nexora Technologies Pvt. Ltd.

Nexora proposes an enterprise customer support platform including ticket management, knowledge base, customer portal, analytics, workflow automation, REST APIs and webhook-based integrations.

Implementation

The implementation is planned for **8 weeks**.

The vendor states:

"The eight-week implementation schedule assumes timely access to customer systems and availability of customer stakeholders."

Pricing

Component	**Amount**
Platform subscription	₹5,80,000
Implementation	₹2,20,000
Training	₹1,00,000
Year 1 Total	**₹9,00,000**

However:

"Third-party integration charges, if applicable, will be billed separately."

Support

Nexora provides **12 months of support from the production go-live date**.

API

"REST APIs and webhooks are included as part of the proposed solution."

SLA

"The platform targets 99.9% monthly availability."

However, the commercial section says:

"Service credits may be provided where applicable."

No detailed service-credit calculation is provided.

Expected characteristics

- Budget: ✅ PASS
- Timeline: ✅ PASS — **exact threshold**
- Support: ✅ PASS — **exact threshold**
- API: ✅ PASS
- SLA: ⚠ **REQUIRES REVIEW**
- Risk: Medium
- Very strong technical fit

Edge cases tested

8 weeks exactly, **12 months exactly**, "targets" vs "guarantees", potentially excluded integration costs.
