Vendor 3 — HelpGrid Solutions

Position

Cheapest serious competitor — but many weaknesses

Proposal

HelpGrid provides ticket management, customer portal, reporting, knowledge management and standard API capabilities.

Implementation

7 weeks

The vendor states:

"Implementation is expected to be completed within seven weeks under standard configuration."

Custom workflows may require additional implementation time.

Pricing

Component	**Amount**
Subscription	₹4,20,000
Implementation	₹1,50,000
Training	₹40,000
Support	₹60,000
Total	**₹6,70,000**

Support

Standard support is provided for **12 months**.

However:

"Premium 24×7 support is available at an additional cost."

API

"The platform supports REST-based integrations."

However, the proposal does not explicitly state whether **customer-specific API implementation** is included.

SLA

The proposal says:

"HelpGrid aims to maintain high platform availability."

No uptime percentage is guaranteed.

Pricing Risk

"Integration, customization and additional storage charges may apply."

Expected characteristics

- Budget: ✅ PASS
- Timeline: ✅ PASS
- Support: ✅ PASS
- API: ⚠ **REQUIRES REVIEW**
- SLA: ⚠ **REQUIRES REVIEW**
- Technical Fit: Medium/High
- Risk: High

Edge case

This is the **cheap vendor trap**.

Your system should not automatically rank it first because it costs only ₹6.7L.
