

Proposal for Customer Support Platform Implementation

Prepared by: NimbusDesk Technologies Pvt. Ltd.

Date: March 2026

Contact: sales@nimbusdesk.example

1. Executive Summary

NimbusDesk Technologies is pleased to submit this proposal for the implementation of a cloud-based Customer Support Platform. Our solution combines ticketing, live chat, and a customer knowledge base into a single unified system, with a proven track record across 120+ mid-market deployments.

2. Commercial Terms

Total Implementation Cost: INR 8,00,000 (Rupees Eight Lakh only), inclusive of setup, configuration, data migration, and training.

Recurring Cost: INR 45,000 per month for platform licensing and hosting, billed monthly in advance.

Payment Terms: 40% advance on signing, 40% on go-live, 20% after 30 days of stable operation.

Pricing Conditions: Pricing is fixed for the first 24 months from go-live and will not change without 90 days written notice.

3. Implementation Timeline

Total implementation time: 6 weeks from contract signing to go-live, structured as:

- Week 1-2: Requirements workshop and environment setup
- Week 3-4: Configuration, data migration, and integration development
- Week 5: User acceptance testing
- Week 6: Go-live and hypercare support

4. Support & SLA

Support Duration: 18 months of included post-launch support from go-live date.

SLA: 99.5% uptime guarantee, with a committed 4-hour response time for critical (P1) issues and 1 business day for standard requests, backed by financial service credits for missed SLA targets.

Warranty: 12-month warranty on all custom-developed integrations.

5. Features & Technical Capabilities

Features:

- Omnichannel ticketing (email, chat, social)
- Customer self-service knowledge base
- Built-in analytics and reporting dashboards
- Role-based access control

Technical Capabilities:

- REST API integration is fully supported, with a published API reference and sandbox access
- Single Sign-On (SAML 2.0 and OAuth 2.0)
- Data encryption at rest (AES-256) and in transit (TLS 1.2+)

6. Compliance & Security

NimbusDesk Technologies holds a valid ISO 27001:2022 certification (Certificate No. ND-ISO-2025-114), renewed annually and available on request.

We are fully GDPR compliant for all customer data processed on behalf of EU-based end users, with data processing agreements available on request.

Security Information: All customer data is hosted in ISO 27001 certified data centers with daily encrypted backups and role-based data access controls.

7. Contract Terms & Exclusions

Contract Terms: Initial contract term of 24 months, with automatic renewal for successive 12-month periods unless either party provides 60 days written notice of non-renewal.

Exclusions:

- Custom mobile application development is not included in this proposal
- Third-party SMS gateway costs are billed separately at actual usage

Other Clauses:

- Source code for custom integrations will be shared under an escrow arrangement
