

Vendor Proposal · Support Platform Modernization

Prepared by: Orbitel Systems

Proposal Reference: ORB-2026-0417

Introduction

Orbitel Systems specializes in enterprise-grade customer engagement platforms for regulated industries. We are excited to propose our platform for your customer support modernization initiative.

Commercial Proposal

The total cost for this engagement will be finalized after a scoping workshop; a preliminary estimate is in the range of Rs. 9,00,000 to Rs. 11,00,000 depending on the final feature set selected during discovery.

A recurring platform fee of Rs. 60,000 per month applies once the platform goes live.

Delivery Approach

Implementation Timeline: 7 weeks from kickoff to production go-live, assuming timely client sign-off at each milestone gate.

Support Commitments

Post-launch support is included for 12 months from go-live.

SLA: We commit to a Service Level Agreement with 99.9% uptime and priority-based response times, detailed further in Schedule C of the Master Services Agreement (to be shared during contracting).

Platform Capabilities

Features:

- AI-assisted ticket routing and triage
- Live chat with co-browsing
- Advanced analytics suite with custom dashboards

Technical Capabilities:

- Full REST and GraphQL API integration supported, with dedicated integration engineering support
- Webhooks for real-time event notifications
- Multi-region deployment options for data residency

Security & Compliance

Orbitel Systems maintains SOC 2 Type II attestation. Additional compliance documentation, including our current ISO 27001 and GDPR compliance status, will be provided during the contracting phase upon request from your security team.

Commercial Conditions

Contract Terms: 36-month initial term. Early termination prior to month 12 will incur an early termination fee equal to 50% of the remaining contract value.

Exclusions: Custom AI model training beyond the standard routing model is out of scope for this proposal and will be quoted separately.
